Site	Page	URL	Summary
Sinatra	About	www.sinatrarb.com/about.html	The About page gives some background on the developers of the language and website.
	Configuring Settings	www.sinatrarb.com/configuration.html	This page describes the different methods to change the settings in the program.
	Contribute	www.sinatrarb.com/contributing.html	Information on how to contribute to Sinatra is included on this page, and includes asking for help or giving help through creating patches.
	Documentation	www.sinatrarb.com/documentation.html	This is a very full and confusing page that most resembles a table of contents, but also includes links to other resources around the web.
	Frequently Asked Questions	www.sinatrarb.com/faq.html	This page includes the most frequently asked questions, including example code in order to fix it.
	Index	www.sinatrarb.com	The page that most resembles a homepage, introducing the sinatra graphic and giving links to the README, Documentation, Contribute, Code, and About pages.
	README	www.sinatrarb.com/intro.html	The README page is the first page that defines what Sinatra is, and gives instructions on how to begin using it and the basic code terms.
	The Blog	www.sinatrarb.com/blog.html	Developers write posts about recent changes, especially new code releases.
	Using Extensions	www.sinatrarb.com/extensions-wild.html	Extensions are extra methods used in Sinatra, and this second extensions page explains how to use them.
	Writing Extensions	www.sinatrarb.com/extensions.html	This extensions page focuses on writing extensions to be able to use them in Sinatra.
	Sinatra in the Wild	www.sinatrarb.com/wild.html	Links to applications and websites that use Sinatra as the language.
	Sinatra::Contrib	www.sinatrarb.com/contrib	Sinatra::contrib is a collection of extensions; this page explains how to install and use the extensions.
	Testing Sinatra with Rack::Test	www.sinatrarb.com/testing.html	Information on using the rack::test method to test Sinatra code.
Sinatra-book	Sinatra: The Book	sinatra-book.gittr.com	The book of Sinatra, which lays out a general introduction to the language as well as a more central overview of the different methods and tests explained on other pages.
GitHub	Sinatra-book Wiki: How to contribute	github.com/sinatra/sinatra-book/wiki/ How-to-contribute	A wiki featuring the guidelines on contributing to the Sinatra website.
