How to contribute

Page History   Clone URL

General guidelines for patches:

- Keep lines to approximately 80 characters or less. This is to allow git to do patches at the line level.
- No embedded HTML. We need to render to LaTeX (and then PDF), which won't support it.

Submitting Patches

- Fork this repo on GitHub and send pull requests
- Find zzak on #sinatra (Freenode) and get a `git format-patch` to them.
